In addition to this, we also make sure that in ahead of delivery; every product is adequately examined so that no discrepancy occurs at our customer's end. Our righteous business policies and quality concentric approach have empowered us to turn into one of the choicest names in the national market.

Our Range of Products:

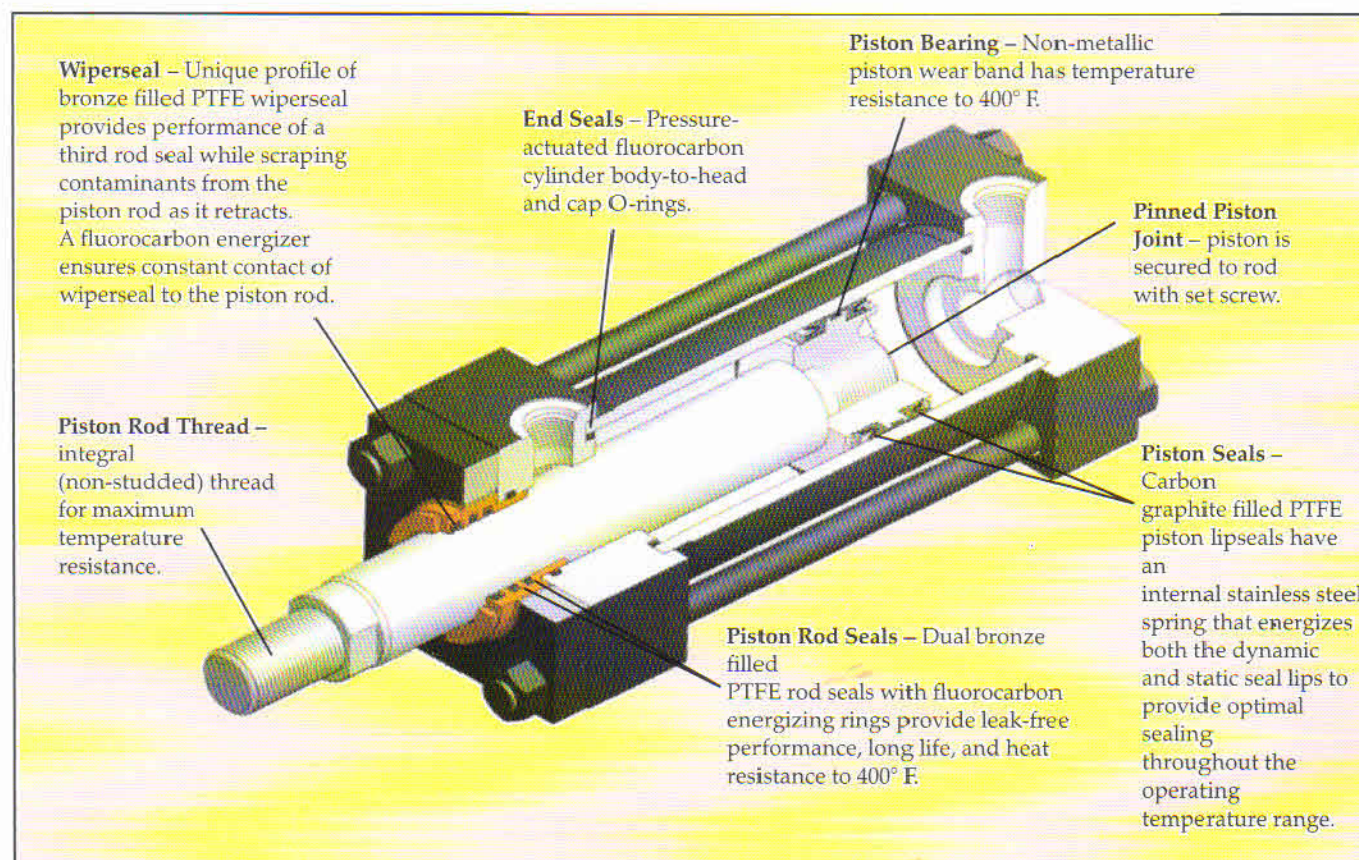

Hydraulic Cylinder

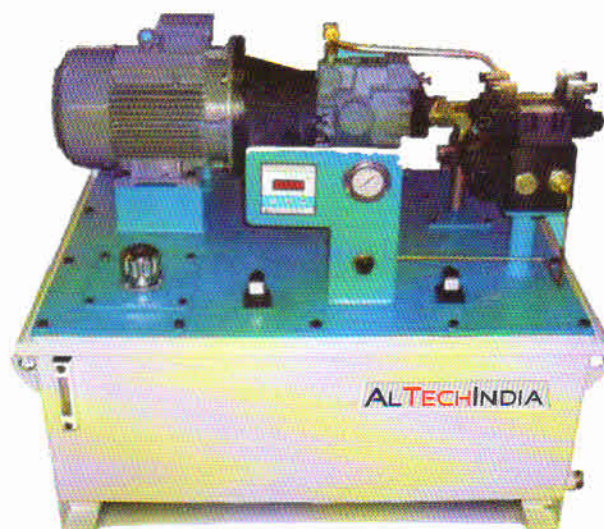

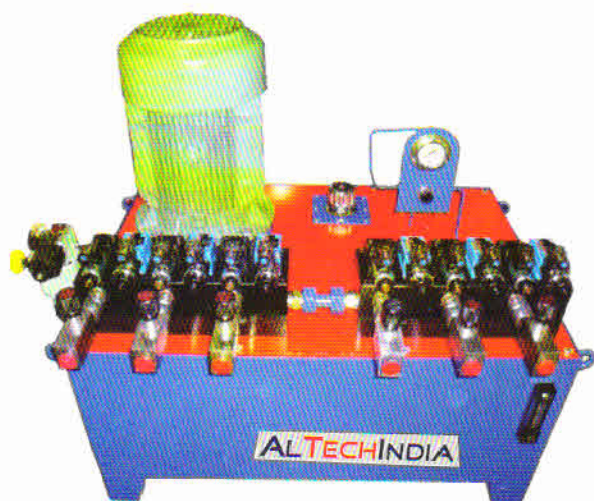

Cylinders for High Temperature Applications

When your customer demands a long life cylinder with outstanding heat resistance, look no further than Altech new Extreme High Temperature Seal option. Filled PTFE piston seals, rod seals, and wiperseal provide maximum resistance to extreme heat (up to 400° F) with excellent service life.

PTFE seals are mechanically energized to maintain uniform contact to dynamic sealing surfaces for positive leak-free performance across the entire operating pressure range. Static seals are fluorocarbon for a complete heat resistant assembly.
